### IN BRIEF

Location! Location! While this property definitely needs tender loving care the upside potential is huge. In actuality it is indeed currently liveable, but anyone with vision, and we think, surprisingly little investment could convert this into a dream which is in a particularly good location. The back of the house has two balconies directly facing the beautiful river Cesse, and the front faces directly onto a village square which could be right out of a classic French movie. Truly the French dream!

### DESCRIPTION

The plans provided show the approximate layout. Understand that the walls of this house are incredibly thick! Indeed it is built into the ancient village ramparts, and so its very 'wonky'. Nothing much is straight. But what it lacks in straightness it certainly makes up in charm and character. None of the rooms are particularly large, after all it is a small house, but it doesn't take much of an imagination to envision how sweet life could be of an evening sitting on the balcony taking in the beauty of the river and its natural swimming pool literally right in front!

The basement of the structure is right on the river bank and would make a superb 'river beach hut'. This part of the house is definitely flood-able, but has been obviously structured to take it and is accessible from the terrace above.

For anyone who wants a good project with great upside potential this house is definitely worth a look...
