IN BRIEF

Create a fabulous chambre d'hotes or several rental apartments in this 500 year old building right in the centre of this vibrant and sought after village. Or, create a family home with a business - the possibilities are endless. This is a stone shell which retains some fantastic original features set in a quiet spot a 1 minute walk from the main square. It's a blank canvas with high ceilings, great volumes and loads of possibilities. There are basic plans already drawn up by a Batiment de France architect to give you some ideas to get started and they are included in the price. Great project at a great price. DESCRIPTION

The front of the building is in a tiny impasse, so very quiet and calm. There is a small village street behind giving access to the rear of the building opposite which is a lovely private park. There is a total of 192m2 in the building and there are currently 2 floors with the possibility of adding a 3rd.

A terrace could be created on the 1st floor, overlooking the park and part of the ground floor could become an interior courtyard. There is space to park on the street outside, and part of the ground floor can be a garage. There is also plenty of parking in the village square a one minute walk away.

The lovely ancient building is crying out for someone to take it on. It is priced to sell, giving a new owner the opportunity to put their money into renovation and creativity.

Please feel free to contact me with any questions or to make an appointment to view!
