DESCRIPTION

The property used to be used as the local Poste Office which you can access via the steps at the front of the property. This now consists of one room with a WC at the back of the room.

To access the living area you go to the rear of the property. On the ground floor is the kitchen and a living room plus a WC. Upstairs there are 4 further bedrooms and a bathroom.

The staircase continues up to a large attic.

The building has previously been heated via Gas Central Heating although this system would need to be updated now.

The property is connected to the mains drains, electrics and water.

Attached to the main building is a garage and there are some small outbuildings in the garden.

Beneath the property is a large cellar.

There is lots of potential here to perhaps create one large house, two apartments or even keep it as it is and reopen the Post Office as some sort of shop.
