IN BRIEF

A stunning and uniquely designed eco property with an open plan kitchen/sitting/dining room and vast ground to 1st floor windows to allow maximum light, the garden and the countryside view to seem part of the interior. The property is built and insulated with natural materials, with the lower level being blocks of straw covered in clay from the property and topped with thick sections of wood wool for the upper section, all skinned in Douglas fir planking. Inside is a superb 'tree' structure that supports a steel roof insulated with 40 cm of wood wool. There is a rectangular studio outbuilding with a wood burner and a washroom. A very sought after property.
