NOTES

DESCRIPTION

Venosc itself is an authentic medieval Alpine village with it's own restaurants & shops just minutes walk from the chalet. It unique in satellite villages in that, in season, its gondola operates from early morning well into the evening (typically 7.30pm in the winter season but with some later nights in peak weeks) so that there is a direct connection to the main resort, allowing access to "first chair" up to the glacier in the morning and plenty of time for apres-ski drinks before heading back to the chalet to relax in the hot tub. This unique accessibility, together with the authenticity of the village, has made Venosc an exclusive address for those seeking access to high altitude skiing without the "built-up resort" feel.

The chalet is equally enjoyable in the summer months, with two separate terraces, paved in travertine, perfect for outdoor entertaining. There is also adjacent constructible land, which could be developed to add value to the property, such as by constructing yoga facilities or a south-facing swimming pool and pool house. The views are spectacular, the possibilities numerous!

To date the chalet has been run as a successful catered chalet for skiing and cycling groups. As many guests were high-level sportspeople, a gym was installed, in addition to the hot tub and sauna to offer the best facilities possible in both summer and winter. The garage has also been adapted in an FI-style to accommodate large groups of cyclists.
