## IN BRIEF

This is a lifestyle-change property that doesn't come onto the market very often. The current owners have spent 37 years lovingly creating this fantastic, well thought-out, relaxing haven, with self sufficiency in mind. Clever heating systems provide economical warmth (even to the domed greenhouse) and the land's water supply is from multiple sources. There is still scope to develop the house even more, into the large convertible loft.

In a hamlet a short walk from the village of Châtelus-Malvaleix (commerce, primary and secondary school, fabulous swimming lake), this 5-bedroom atypical property, was built in around 1850. It has been renovated to be particularly suitable for home-working, with workshops, a self-contained studio, treatment rooms etc. For information about the village, here is the website - ht
