DESCRIPTION

Beautiful house completely renovated with nice views of the Loire Valley. The house is very high from the river, so there is no risk of flooding.

Located on the outskirts of the village, on a very quiet street where only local traffic passes. The house has a front garden and is therefore located a little off the street. In front of the house, on the other side of the street, is another plot of 1857 m2 included in the sale. Around the house is a garden of 1730 m2.

The house consists of: On the ground floor:

A living room with a white beamed ceiling. A very bright space thanks to the two large windows at the front and the glazed front door, which allows you to have a beautiful view of the Loire from the living room. And a large window on the side too. So a nice bright living room. This room is heated with a wooden insert and there is also a heat pump. The heat pump provides heat in winter and coolness in summer. The built-in fireplace blows heat throughout the house by means of grilles in the rooms on the 1st floor and in the bathroom on the ground floor. In the living room there is also electric underfloor heating. There is a connection for TV in this room.

The kitchen:

Again, the space is very bright thanks to numerous windows above the work surface, a double glass door at the back...
