DESCRIPTION

Situated in a small farming hamlet in an elevated position, this property enjoys lovely, far-reaching views over the surrounding countryside.

The property comprises a basic habitable single-storey bungalow with two bedrooms, a small open-plan living room and kitchen, and a shower room with WC. The bungalow is fully habitable and benefits from a wood-burning stove and electric radiators in the bedrooms. Double-glazed French doors open onto the garden and terrace, with the land surrounding the property.

Opposite the bungalow is a second house, offering six rooms in total and requiring complete renovation.

This is an ideal project for someone looking to undertake a renovation, with the considerable advantage of being able to live on site in the habitable bungalow while the work is carried out.

Once renovated, the second house could be used as a gîte or long-term rental, or simply as additional accommodation for family and friends.

A good-sized workshop is attached to the bungalow, and there is also a cellar.
